Giving Thanks!

As we look forward to the holiday season and the new year, we give thanks to all of those who make WWR such a great group of individuals and families! We extend our warmest wishes to everyone in our WWR family who have helped make huge differences in the lives of Westies, Westie mixes and their families! You're the Best!

In this issue we will profile two of our Westies, Tasha and Frosty, who found their forever homes through WWR. From their stories we can see both dog and their forever family are grateful to have found each other through WWR.

Please see page 3 for ways you can help WWR and keep making a difference one Westie at a time! ☺

Tasha: by Jerry & Dianne Poe

Tasha, aka Betsy, aka Bertie became a part of our family in August of 2005. We'd never been involved with a rescue organization, never even heard of one for that matter, and after all the paperwork and the home visit we were finally blessed with a call saying that there was a dog available at one of the foster sites that we could visit to see if she met our needs and we met hers. I must say I was very impressed with the care and concern for these animals that had already been through so much. I cannot begin to say enough about what a great organization this is.

As you may have guessed "Tasha" returned home with us that afternoon. It was a change for her, for us and for our four cats! She adjusted better than any dog we've ever had before. After a few months she started to play with some toys, something that I'm sure was new to her. She even plays with our youngest cat as long as she doesn't feel that he threatens her place in our lives. She's not always real good at sharing but we continue to work on this. I've come to the conclusion that if anyone should ever break into our home we wouldn't be able to hide and go undetected. She's quite the barker and growler when anyone comes into the house.

So much for stealth! We're at least warned ahead of time. She accompanies us to work everyday and is a nice addition to the office. The first time we had to board her she stuck pretty close to the owner but we've been told that she now runs and plays with the other dogs and is in the thick of things. She is a confident and secure little girl, unlike the dog we acquired last fall. She has been a blessing. ☺

Frosty's Story by Jill Markgraf

Coming to us from his infinitely kind and helpful foster family--Kris, Tom and Wilson Thommesen--Frosty's new life was sure to be very different from the one he had always known. Having spent his first seven years with recently deceased septuagenarians, life

Frosty's story continues on page 2

Frosty's Story from page 1

with an active, busy family of four was sure to be a new adventure.

We will never know what Frosty's life was like before, but we are guessing that in his previous life he never:

- rode in a kayak
- went tent camping for a week (and delighted in the discovery of a beaver carcass on the beach)
- attended a slumber party with nine 10-year-old adoring girls
- rocked out to the tunes at outdoor concerts in the park
- cruised State Street in Madison
- delighted neighbors as he rode around town in a bike basket
- fell in love and went on daily walks with the enchanting Chihuahua next door
- went trick-or-treating dressed as a clown
- hung out with an electric guitar player

But those are some of the things he's doing now. Whatever Frosty's past, we are pretty certain that he was adored. A dog with such a sweet, affectionate and friendly disposition must have grown up with a lot of love.

Frosty has been with us since the end of July, and in this short time he has won over not only our hearts, but those of our friends and family. Grandma, who previously declared that no dogs would be allowed in her house, made an exception for Frosty. ("I think he likes me," she said.) The neighbors, who have long watched our daughter Alida gush over every dog in the neighborhood, are delighted to see her finally able to gush over a dog of her own. Frosty and Alida are thick as thieves, and the thing Frosty seems to hate most is the school bus that takes Alida away every morning. Despite his frantic barking and warnings, she still climbs aboard that evil bus day after day. As agitated as he gets in the morning, he knows no joy greater than when that school bus brings her back in the afternoon.

Frosty is not the only one adapting to change. We are too. Those cooing baby

voices we haven't used since our children were toddlers have re-emerged. Even our teenaged son, who mocked us for being smitten with this dog, caught himself "talking baby-talk and asking Frosty questions he can't possibly answer." There is, quite simply, no maintaining one's cool when in the presence of a charmer like Frosty.

Frosty and Alida Halloween 2006

People who stop to pet Frosty and ask about him, upon hearing of how we adopted him through Westie Rescue, inevitably shake their heads and exclaim, "He got lucky." We like to think he did. But when we think of how he makes us laugh and how he has managed to bring out a more tender and playful quality in our family, we know that we are the ones who got lucky. ☺

Do you have a story to tell about your Westie adopted from WWR? Please send it to us at 59barbie@charter.net and we'll get it printed in a newsletter and posted on our website! Photos optional. ☺

Foster News!!

Looking for Homes:

Grace

Grace is a wonderful petite (10 lb) Westie rescued from a breeder auction in WI. She comes with papers but due to her short tail and slightly weaker back leg, she was not bought by a breeder. Grace is 2 years old with a sweet playful Westie personality. She is currently recovering from being spayed and evaluated for her leg. Grace loves to snuggle, chase small balls, chew on rawhide and is working on her housetraining. She is very, very smart and open to meeting any human or animal. Anne Plouff is her foster mom in Milwaukee.

Annie

Annie is a 1 year old female turned over to WWR following the October 14th dog auction in Thorp WI. Blind in one eye due to a congenital defect, Annie is being fostered by new WWR volunteer Ann Marie in Brookfield WI. Annie is outgoing, playful and full of Westitude! Ann Marie says this little girl is doing wonderfully on house training and is ready to meet her forever family and bring joy to their home!

Baby Girl

Still another Westie puppy! Born June 9th, 2006, this little girl comes from a puppy mill in southern WI. Just entering rescue, this

little one will be heading to her foster home with Tom and Kris in Madison.

handle this bundle of love. Her foster family lost their heart to this little waif of a puppy and she will stay with Barbara, Blaine and daughter Micaela and her two Westie sisters!

Josie

Josie found her forever family when Cheryl and Carol Cutsforth adopted this sweet and shy little foster girl! Josie is currently enjoying to good life with her sister Amanda and especially likes cooked chicken and rice for dinner and her special bed by the kitchen.

Molly

Molly came to WWR at 11 weeks of age as an owner turn in due to personal reasons. This delightful little girl fostered by the Peden family is making her forever home in Eau Claire with Steve and Pam and their Westies Spencer and Ellie. Our best to all of you!

Lilly

Lilly is a 6 year old Westie female fostered by Robert and Maureen Wilson. Robert kept a diary for us and we will finish Lilly's journey to her forever home with Jean Birkett! Thanks Robert and Maureen!

Lilly spent the rest of the next month with us. She was paired up with Jean Birkett through WWR. Jean is retired from teaching, although I don't think she will ever retire completely (she is just so full of life). Jean mentioned she was familiar with Westies as she took care of her son's Westie a few years earlier. Jean asked if we would be willing to help her out by keeping Lilly for a little while so she could finish a book she was writing. She was in the process of finishing up the work with the publisher and she wanted to devote time to Lilly and the book would be in the way of doing that. Of course we said yes. Lilly was a sweet dog and Lucy and she got along great. We got another month to take walks with her on the bike trail, and she and Lucy would keep the evil squirrels away in the backyard.

Maureen and I were glad to see that Jean wanted to totally focus on Lilly. Lilly would know that she had a home in which she

could feel comfortable with an owner who could give her the attention that she needed and deserved.

Lilly went to live with Jean on August 9, 2006 in Richland Center, WI. Jean told us she has a nice back yard and plenty of squirrels for Lilly to chase. That absolutely must be a Westies favorite game because I haven't seen one yet who just doesn't go ballistic at the sight of a squirrel. Anyway, in the end it was difficult to see Lilly go but I knew she was a great match for her new forever home.
